Технические характеристики на планки-основания Picatinnu серии PH компании **Contessa**

PH01 – SAKO TRG 42/22

- Picatinny rail specifically designed to fit **Sako TRG**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH02 – REMINGTON 700 LONG

- Picatinny rail specifically designed to fit **Remington 700 Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Precisely designed to fit perfectly Remington 700 Long.
- Available with 0/10/20/30 MOA.
- Screws and wrench for mounting supplied.

PH03 – TIKKA T3

- Picatinny rail specifically designed to fit **Tikka T3 – T3X**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0/10/20/30 MOA.
- Available in black or chrome finish.
- Screws and wrench for mounting supplied.

PH03-NV – TIKKA T3 NV

- Picatinny rail specifically designed to fit on **Tikka T3 – T3X**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH04 – BROWNING A-BOLT LONG/EUROBOLT

- Picatinny rail specifically designed to fit **Browning A-Bolt 3 Long action and Eurobolt long.**
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH04-NV – BROWNING A-BOLT LONG NV

- Picatinny rail specifically designed to fit on **Browning A-Bolt Long.**
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH05 – ZOLI ANTONIO AZ 1900

- Picatinny rail specifically designed to fit **Zoli Antonio AZ 1900.**
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH05-NV – ZOLI AZ 1900 NV

- Picatinny rail specifically designed to fit on **Zoli Antonio AZ 1900.**
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.

- Screws and wrench for mounting supplied.

PH06 – WINCHESTER 70 SHORT

- Picatinny rail specifically designed to fit **Winchester 70 Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH07 – BENELLI ARGO

- Picatinny rail specifically designed to fit **Benelli Argo**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH08 – SABATTI ROVER 600 SHORT

- Picatinny rail specifically designed to fit **Sabatti Rover 600 Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH08-NV – SABATTI SHORT NV

- Picatinny rail specifically designed to fit on **Sabatti Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH09 – ROESSLER TITAN 6

- Picatinny rail specifically designed to fit **Roessler Titan 6**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH10 – HOWA Mod. 1500 SHORT

- Picatinny rail specifically designed to fit **Howa Mod. 1500 short action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH11 – HOWA Mod. 1500 LONG

- Picatinny rail specifically designed to fit **Howa Mod. 1500 long action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.

- Screws and wrench for mounting supplied.

PH12 – SAKO 85 S/SM

- Picatinny rail specifically designed to fit **Sako 85 S/SM**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0, 10 or 20 MOA.
- Screws and wrench for mounting supplied.

PH12-NV – SAKO 85 S/SM NV

- Picatinny rail specifically designed to fit on **Sako 85 S/SM**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH13 – SAKO 85 M

- Picatinny rail specifically designed to fit **Sako 85 M**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0, 10 or 20 MOA.
- Screws and wrench for mounting supplied.

PH13-NV – SAKO 85 M NV

- Picatinny rail specifically designed to fit on **Sako 85 M**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH14 – SAKO 85 L/XL

- Picatinny rail specifically designed to fit **Sako 85 L/XL**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0, 10 or 20 MOA.
- Screws and wrench for mounting supplied.

PH14-NV – SAKO 85 L/XL NV

- Picatinny rail specifically designed to fit on **Sako 85 L/XL**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH15 – REMINGTON 700 SHORT

- Picatinny rail specifically designed to fit **Remington 700 Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0/10/20/30 MOA.
- Screws and wrench for mounting supplied.

PH15-NV – REMINGTON 700 SHORT

- Picatinny rail specifically designed to fit on **Remington 700 Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Progettata con precisione per adattarsi perfettamente a Remington 700 short.

- Screws and wrench for mounting supplied.

PH16 – REMINGTON 770

- Picatinny rail specifically designed to fit **Remington 770**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Precisely designed to fit perfectly Remington 770.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH17-NV – BROWNING BAR NV

- Picatinny rail specifically designed to fit on **Browning Bar**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH18 – WINCHESTER 70 WSM

- Picatinny rail specifically designed to fit **Winchester 70 WSM**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH17 – BROWNING BAR

- Picatinny rail specifically designed to fit **Browning Bar**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH19 – WINCHESTER 70 LONG

- Picatinny rail specifically designed to fit **Winchester 70 Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH20 – SABATTI ROVER 870 LONG

- Picatinny rail specifically designed to fit **Sabatti Rover 870 Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH20-NV – SABATTI LONG NV

- Picatinny rail specifically designed to fit on **Sabatti Long**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH21 – SAVAGE 110-111- 112 LONG

- Picatinny rail specifically designed to fit **Savage 110-111-112 Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH22 – SAVAGE 10-11-12 SHORT

- Picatinny rail specifically designed to fit **Savage 10-11-12 Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH23 – MAUSER M12

- Picatinny rail specifically designed to fit **Mauser M12**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH23-NV – MAUSER M12

- Picatinny rail specifically designed to fit on **Mauser M12**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH24 – SAUER 101

- Picatinny rail specifically designed to fit **Sauer 101**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH24-NV – SAUER 101 NV

- Picatinny rail specifically designed to fit on **Sauer 101**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH25 – MANNLICHER CLASSIC SHORT

- Picatinny rail specifically designed to fit **Mannlicher Classic short action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH26 – MANNLICHER CLASSIC MEDIUM

- Picatinny rail specifically designed to fit **Mannlicher Classic Medium**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Precisely designed to fit perfectly Mannlicher Classic Medium.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH27 – MANNLICHER CLASSIC LONG

- Picatinny rail specifically designed to fit **Mannlicher Classic Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Precisely designed to fit perfectly Mannlicher Classic Long.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH27-NV – MANNLICHER CLASSIC LONG

- Picatinny rail specifically designed to fit on **Mannlicher Classic Long**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH28 – CZ 452 / 455

- Picatinny rail specifically designed to fit **CZ 452** and **CZ 455**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH29 – ANSCHÜTZ 54 – 64

- Picatinny rail specifically designed to fit **Anschütz 54** and **Anschütz 64**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0/10/20/30 MOA.
- Screws and wrench for mounting supplied.

PH30 – SAUER 200

- Picatinny rail specifically designed to fit **Sauer 200**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH31 – SAKO 85 XS

- Picatinny rail specifically designed to fit **Sako 85 XS**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0, 10 or 20 MOA.
- Screws and wrench for mounting supplied.

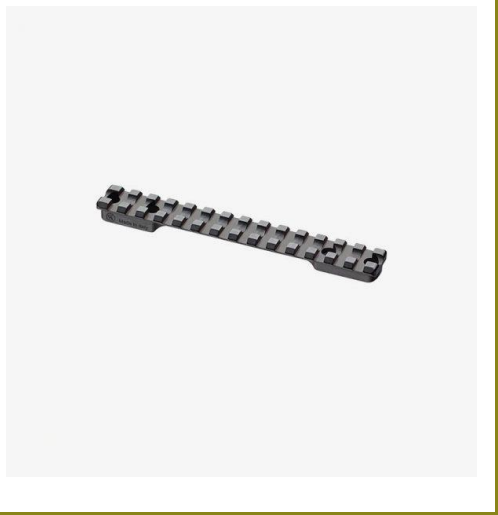

PH31-NV – SAKO 85 XS NV

- Picatinny rail specifically designed to fit on **Sako 85 XS**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH32 – BRNO 98

- Picatinny rail specifically designed to fit **Brno 98**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH33 – SAUER 202 STANDARD

- Picatinny rail specifically designed to fit **Sauer 202 Standard**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied

PH33-NV – SAUER 202 SA NV

- Picatinny rail specifically designed to fit on **Sauer 202 SA**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH34 – SAUER 202 MAGNUM

- Picatinny rail specifically designed to fit **Sauer 202 Magnum**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Precisely designed to fit perfectly SAUER 202 Magnum.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH35 – VOERE 2155

- Picatinny rail specifically designed to fit **Voere 2155**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH36 – SAKO A7 XS CAL. 223

- Picatinny rail specifically designed to fit **Sako 85 L/XL**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH37 – SAKO A7 S

- Picatinny rail specifically designed to fit **Sako A7**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH38 – SAKO A7 L

- Picatinny rail specifically designed to fit **Sako A7 L**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH39 – SIG SAUER SSG 3000

- Picatinny rail specifically designed to fit **SIG SAUER SSG 3000**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH40 – WEATHERBY VAN GUARD SHORT

- Picatinny rail specifically designed to fit **Weatherby Van Guard Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA
- Screws and wrench for mounting supplied.

PH41 – WEATHERBY VAN GUARD LONG

- Picatinny rail specifically designed to fit **Weatherby Van Guard Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH42 – WEATHERBY MARK 5

- Picatinny rail specifically designed to fit **Weatherby Mark 5**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH43 – BROWNING X – BOLT SHORT

- Picatinny rail specifically designed to fit **Browning X-Bolt short action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH43-NV – BROWNING X- BOLT SHORT

- Picatinny rail specifically designed to fit on **Browning X-Bolt Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH44 – BROWNING X – BOLT LONG

- Picatinny rail specifically designed to fit **Browning X-Bolt long action.**
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH44-NV – BROWNING X- BOLT LONG NV

- Picatinny rail specifically designed to fit on **Browning X-Bolt Long.**
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied

PH45 – BROWNING A- BOLT SHORT/EUROBOLT

- Picatinny rail specifically designed to fit **Browning A-Bolt 3 Short action / Eurobolt short.**
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH45-NV – BROWNING A-BOLT SHORT NV

- Picatinny rail specifically designed to fit on **Browning A-Bolt Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH46 – WINCHESTER 70 EXTRA LONG

- Picatinny rail specifically designed to fit **Winchester 70 Extra Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH47 – WINCHESTER XPR SHORT

- Picatinny rail specifically designed to fit **Winchester 70 XPR Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH47-NV – WINCHESTER XPR SHORT NV

- Picatinny rail specifically designed to fit on **Winchester XPR Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH48 – HAENEL JAEGER 10

- Picatinny rail specifically designed to fit **Haenel Jaeger 10**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH49 – CZ 550 STANDARD

- Picatinny rail specifically designed to fit **CZ 550 STANDARD**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH50 – CZ 550 MAGNUM

- Picatinny rail specifically designed to fit **CZ 550 MAGNUM**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH51 – BROWNING A-BOLT 3 SHORT

- Picatinny rail specifically designed to fit **Browning A-Bolt 3 short action**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH52 – BROWNING A-BOLT 3 LONG

- Picatinny rail specifically designed to fit **Browning A-BOLT 3 long action**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH52-NV – BROWNING A-BOLT 3 LONG NV

- Picatinny rail specifically designed to fit on **Browning A-Bolt 3 Long**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH53 – BROWNING EUROPEAN

- Picatinny rail specifically designed to fit **Browning European**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH54 – H&K 770 / 940

- Picatinny rail specifically designed to fit **H&K 770** and **940**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH55 – VERNEY CARRON

- Picatinny rail specifically designed to fit **Verney Carron**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH56 – BAIKAL

- Picatinny rail specifically designed to fit **Baikal**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH57 – WINCHESTER XPR LONG

- Picatinny rail specifically designed to fit **Winchester 70 XPR Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied

PH57-NV – WINCHESTER XPR LONG NV

- Picatinny rail specifically designed to fit on **Winchester XPR Long**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

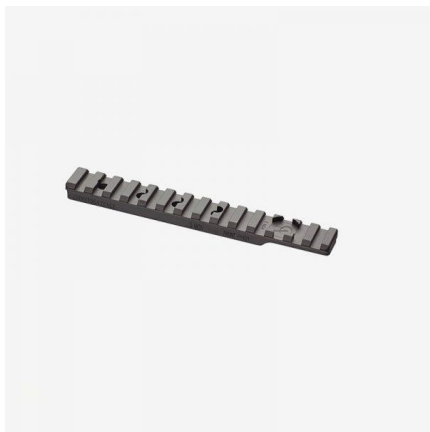

PH59 – SLB 2000

- Picatinny rail specifically designed to fit **SLB 2000**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH60 – SAUER 303

- Picatinny rail specifically designed to fit **Sauer 303**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH61 – BERGARA BA13

- Picatinny rail specifically designed to fit **Bergara BA13**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH62 – FRANCHI HORIZON

- Picatinny rail specifically designed to fit **Franchi Horizon**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH63 – CZ 527

- Picatinny rail specifically designed to fit **CZ 527**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH64 – REMINGTON 783 SHORT

- Picatinny rail specifically designed to fit **Remington 783 Short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH65 – REMINGTON 783 LONG

- Picatinny rail specifically designed to fit **Remington 783 Long**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH67 – BROWNING X – BOLT EXTRA SHORT

- Picatinny rail specifically designed to fit **Browning X-Bolt extra short**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH67-NV – BROWNING X- BOLT EXTRA SHORT NV

- Picatinny rail specifically designed to fit on **Browning X-Bolt Extra Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH68 – TIKKA T1

- Picatinny rail specifically designed to fit **Tikka T1 and T1X**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0/10/20/30 MOA.
- Screws and wrench for mounting supplied.

PH69 – FAIR CF1

- Picatinny rail specifically designed to fit **Fair CF1**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH70 – MERKEL HELIX – SABATTI SAPHIRE – SAKO S20 – PICATINNY ON PICATINNY

- Picatinny rail specifically designed to fit **Merkel Helix, Sabatti Sapphire, Sako S20** and **Picatinny on Picatinny**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH70-NV – MERKEL HELIX – SABATTI SAPHIRE NV

- Picatinny rail specifically designed to fit on **Merkel Helix e Sabatti Sapphire**.
- Contessa Picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH71 – SABATTI SPORTER CAL. 22

- Picatinny rail specifically designed to fit **Sabatti Sporter Cal. 22**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH72 – HEYM SR 30

- Picatinny rail specifically designed to fit **Heym SR 30**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH74 – PICATINNY ON PICATINNY

- Picatinny rail on picatinny.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH74-NV – PICATINNY ON PICATINNY NV

- Picatinny on picatinny.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH76 – BERGARA B14 SHORT

- Picatinny rail specifically designed to fit **Bergara B14 short action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.

- Screws and wrench for mounting supplied.

PH76-NV – BERGARA B14 SHORT NV

- Picatinny rail specifically designed to fit on **Bergara B14 Short**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH77 – BERGARA B14 LONG

- Picatinny rail specifically designed to fit **Bergara B14 long action**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH77-NV – BERGARA B14 LONG NV

- Picatinny rail specifically designed to fit on **Bergara B14 Long**.
- Contessa picatinny rails in hardened steel are machined from solid, designed to guarantee stability and long-term resistance.
- 60 mm rear extension to mount thermal or night vision devices.
- Screws and wrench for mounting supplied.

PH78 – FRANCHI HORIZON CAL. 223

- Picatinny rail specifically designed to fit **Franchi Horizon Cal. 223**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH79 – MARLIN LEVER 336/1895

- Picatinny rail specifically designed to fit **Marlin Lever/336/1895**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH80 – REMINGTON 7400

- Picatinny rail specifically designed to fit **Remington 7400**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH81 – SAUER 404

- Picatinny rail specifically designed to fit **SAUER 404**.
- Contessa picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.

PH83 – BENELLI LUPO

- Picatinny rail specifically designed to fit **Benelli Lupo**.
- Contessa Picatinny rails in hardened steel with are machined from solid, designed to guarantee stability and long-term resistance.
- Available with 0 or 20 MOA.
- Screws and wrench for mounting supplied.
